PROFILE

AI Solutions Engineer bridging technical depth with creative vision. I build production AI systems — from prompt management infrastructure and multi-provider LLM orchestration to ML forecasting and data pipelines. Trilingual (ES/DE/EN C2), I thrive at the intersection of engineering, design, and cross-cultural collaboration. Equally fluent in code, copy, and conversation.

EXPERIENCE

AI Solutions Engineer

Apr 2025 – Present

Jobilla DACH · Product Team · Remote (Germany)

- Architected prompt management infrastructure with Langfuse — **12 endpoints**, runtime updates without deployment, A/B testing
- Built multi-provider AI orchestration (Claude, GPT, Gemini) with sequential fallbacks for production reliability
- Shipped **5 production releases in 6 months**, owning LLM generation quality end-to-end
- Engineered 3-database BI platform (JobiData): **24K campaigns, 53K regional records, 4.2M demographic events**
- Built ML forecasting system (Random Forest) — **R²=0.972, 17.7% MAPE**
- Eliminated **€10K+ annual costs** via AI image-generation pipeline replacing stock photography
- Developed Python CLI for mass data labeling (ISCO/NACE) — **26K campaigns, 99% reliability**

Gen AI & Content Specialist

Aug 2023 – Apr 2025

Jobilla DACH · Service Production · Remote (Germany)

- Implemented AI-first creative workflow — **90% AI utilization** in campaign generation
- Created multilingual content strategies across **6 languages** using AI-assisted localization
- Designed and delivered AI tool training for all organizational levels
- Built systematic prompt engineering frameworks adopted in production

AI Consultant & Digital Craftsman

Jan 2020 – Present

Ouroboros Creative Collective · Freelance

- Designed multilingual digital toolkit for YEEI (NGO) — **7+ languages, 3 continents**
- Built end-to-end websites for musicians, businesses, and portfolios (React, Next.js)

Earlier Roles

2014 – 2022

eDreams ODIGEO (Barcelona) · Maschinenfabrik Reinhausen · AMZ-Marketing · Bayer Bolivia

- Foundations in SQL/data (Salesforce, SAP ERP), graphic design (Amazon A+), and international trade
- Cross-functional exposure across business development, HR, marketing, and logistics in 3 countries

KEY PROJECTS

Langfuse Prompt Infrastructure

12-endpoint prompt management system enabling runtime updates, metrics tracking, and A/B testing without deployment

TypeScript · Langfuse · Vercel AI SDK · OpenTelemetry

JobiData BI Platform

Three-database analytics platform with ML forecasting (R²=0.972), regional attribution, and NUTS classification

Python · SQLite · scikit-learn · CLI

26K Campaign Labeling

Python CLI for mass ISCO/NACE classification using structured LLM outputs at 99% reliability

Python · Gemini Flash · Async Processing

AI Image Pipeline

Automated generation pipeline replacing €10K+ stock photography with quality validation and retry logic

Python · Midjourney · Imagen 3 · Laravel
